

I am a former Headstart parent of Gavin N. Gust. I am interested in going to this Juneau Conference because I didn't have the chance to go last year. I was having a baby while they had this conference last year. I am interested in going because I am a Supportive Parent of Gavin N. Gust and my younger children that are going to be in Headstart. I want to learn more in what headstart really is. I've been on the PC Council last year and is still on the PC council this year. I choose to be and will have the full support for my children because there are NO>>>NO other parent that will take a stand in supporting there own children.. Here in New Stuyahok we have a lack of parents that are non-supportive. I hope to get all the information gathered and to come back home and tell everyone about this conference. It'll be a new experience for me. I want to continue this headstart program because it helps our children before entering Kindergarten.

Thanks,

Alexandra Gust
