To Whom It May Concern,

Hi this is Lorena Geerhart from Manokotak I am one of the headstart parent and also seating as policy council. Manokotak has lost the headstart school for a couple of years and since it has been back we've been excited for our school. I am writing this letter because I am interested in learning more about the headstart, how it runs and how to keep our school open for other future students, how and why we seat in the policy council, what is to come of the future way of headstart, how the meeting can be more successful in our monthly meeting. How we can better serve our council and parent involvement.

If and when I am chosen to attend this conference, I plan to meet with the parents and let them know how the training went and what I learned from it, and how we can better serve our headstart school.

Thank you for your time.

Sincerely,

Signed
Lorena Geerhart
Headstart parent & Policy Council
